Chandelier 54-8

The Wrought Iron Family

Iron as a raw material seems quite archaic. Under the hands of our smith this cold and crude material is formed to warm and gentle forms, some floral, some geometric.

Flowers and curls artfully forged create a lofty feel in the otherwise strong geometric composure of this fixture. The exquisite leaf gilding furthers this expression.

This line was made for a major church in Innsbruck.

Design: Historical, circa 1800; Renaissance
Material: Wrought Iron; Finish: Leaf gold, black

Dia.: 72 cm, H.: 89 cm; Weight: 10 kg
Lights: 8 candles; Max. Wattage: 480 W
